

## Engineering internship at Proton Ventures

Proton is the leading partner for decentralized ammonia and / or NFUEL production units in the world. Our goal is to be an innovative partner for storage of liquefied gasses and other chemicals in a safe, reliable, efficient and environmentally acceptable way. We enable and support our partners to develop applications based on sustainably produced NFUEL. Proton Ventures BV originally started in 2001 in Brielle (the Netherlands). In 2011 we moved our office to Schiedam (the Netherlands) within close proximity to the industries in the Port of Rotterdam. We are a team of 20 enthusiastic professionals who can develop, design and implement customized solutions for our customers.

Currently we are looking for an intern for our engineering department.

### About the Engineering internship

An internship at Proton Ventures means the possibility to get used to the work of your specialty. We train and manage you in our young and enthusiastic team.

### Characteristics

- Enthusiastic, flexible, eager to learn
- Multitasker; you have the ability to prioritize
- Excellent Communication skills in Dutch and English
- Computer literate in various programs including Microsoft Office

If you apply for an internship at **our engineering department**:

- You are a third or fourth year student (bachelor or master) in Engineering or Process Technology;
- You have basic knowledge on Mathcad, Autocad and/or Aspen model software;
- You understand basic chemical processes & mechanical equipment characteristics;
- You are willing to assist in creating engineering procedures and protocols for the organization of the engineering team.

### Small matters

Proton Ventures offers a challenging workplace in a dynamic environment. We offer an intern repayment. Travel costs reimbursement (commuting) is not applicable, unless you need to travel for business purpose. You have your own workspace at the office.

### Your application

If you are interested in joining Proton Ventures, please send an email to [hr@protonventures.com](mailto:hr@protonventures.com) with your CV and a short motivation letter. If you have any questions please contact Yorgos Dodoros via +31-10-426 72 75.

Karel Doormanweg 5  
3115 JD Schiedam
